

Threat4 x-62000 Headset Recognized as 2011 Innovation Awards Finalist

Chicago, IL November 1, 2011 – The Threat4 In-Ear Tactical Headset (x-62000) was selected as a Finalist in the 2011 Cygnus Law Enforcement Innovation Awards at this year's IACP Conference in Chicago.

The Innovation Awards recognize new products and services introduced to the law enforcement market during the previous year. Manufacturers submit their newest and most inventive products for evaluation from a panel of independent law enforcement judges.

Recognized for innovation in the 'Communications' category, the x-62000 in-ear tactical headset features 32-39dB noise reduction, a Quad-Mic system to provide near 360 degree situational awareness and unmatched sound localization. The headset has a built in DSP (digital signal processor) and proprietary algorithms to simulate human hearing, while protecting from impulse and continuous noise. The x-62000 features fully headborne electronics, is built with a fail-safe system, and does not require batteries.

The Cygnus Law Enforcement Group is comprised of the properties of Cygnus Business Media dedicated to law enforcement. These include *Law Enforcement Technology*, *Law Enforcement Product News*, *Officer.com*, *Enforcement Expo* and the brand new *Officer World Expo*.
