

Virginia SWAT Team Selects New Threat4 x-62000 Tactical Headset

October 21, 2011 – The City of Staunton Police Department tactical unit has recently been outfitted with the new communication headset from Threat4. The department recently took delivery of the headsets, including some with dual radio capability for their team leaders. The x-62000 headset has a patented 4 microphone system to provide near 360 degree situational awareness, while providing a very high level of hearing protection to the officers (32-39dB noise reduction), and unmatched sound localization.

“We have tactical teams testing this headset all the time, and I’ve lost count of how many times I’ve been told the x-62000 provides the best sound localization of anything ever made...and comfort is a big plus for these guys as well.” said Threat4 Director of Sales Tim Paquette.

The Staunton Police Department is an internationally accredited, full-service law enforcement agency dedicated to serving the citizens of the City of Staunton, Virginia. Their tactical team won the annual SWAT Competition held in Harrisonburg last year.
