

Xacore is Awarded a Contract to Supply Radio Audio Accessories to the Transportation Security Administration (TSA)

October 6th, 2009 – Bradenton, FL – Xacore announces today that its audio accessories will be issued to all TSA staff at over 450 U.S. airports, at the security staff level. These Xacore accessories will connect to TSA's recently acquired Icom radios.

The Transportation Security Administration was formed immediately following the tragedies of September 11th. TSA is a component of the Department of Homeland Security and is responsible for security of the nation's transportation systems. TSA's state, local and regional partners oversee security for the highways, railroads, buses, mass transit systems, ports and U.S. airports. They employ approximately 50,000 people from Alaska to Puerto Rico to ensure your travels – by plane, train, automobile or ferry – are safe and secure.

Xacore will deliver the order by November 5, 2009.

About Xacore

Founded in 2003, Xacore's mission is to supply lower-cost high-quality professional grade audio solutions to the LMR market place. As a structured boutique shop, we provide our customers a streamlined experience with direct access to engineering, customer support, logistics and management. Supported by our in-house engineering staff, Xacore's capabilities reach far into the realm of radio communications engineering. From our commercial off-the-shelf ("COTS") products to our engineered solutions, Xacorians are masters of Gerber files, firmware, printed circuit board ("PCB"), analogue, digital, RF and mechanical design. ***You Dream It, We Engineer It!***
